

Product Information

Prion Protein Monoclonal Antibody - SAF 61

Cat No: A03205 - 200 Åµg

General Data

Shipping:	Dry Ice
Formulation:	lyophilized IgG with BSA
Host:	Mouse
Antigen:	This anti-Prion Protein Monoclonal Antibody was raised against a preparation of SAF (scrapie associated fibrils) from infected hamster brain.
Clone:	SAF 61
Isotype:	IgG2a

Application(s): Reconstitute the content of the vial in 1 mL of water.
For EIA and flow cytometry, the optimal working dilution must be determined empirically (currently between 0.1 and 1 Åµg/mL).

Specificity: PrPc
(+) Hamster, (+) Mouse, (+) Bovine, (+) Ovine, (+) Human

Product Overview

Prion Protein (PrP) and namely its abnormal isoform, partially resistant to proteinase K (PrPres), is the only specific molecular marker of the Transmissible Spongiform Encephalopathies (TSEs) such as Bovine Spongiform Encephalopathie (BSE) or its human form, the New Variant of Creutzfeld-Jakob disease.

This antibody recognises the protein sequence within amino acids 142-160 (human numbering).

FP/14/23

For research laboratory use only – Not for human diagnostic use.

Buyers agree to purchase the material subject to Purchasing Terms that can be found on our website. Seek appropriate training to safely handle this product under normal conditions. Use the recommended personal protective equipment to prevent chemical exposures.
