

Product Information

Prion Protein Monoclonal Antibody - BAR 236

Cat No: A03224 - 200 µg

General Data

Shipping:	Dry Ice
Formulation:	lyophilized IgG with BSA
Host:	Mouse
Antigen:	This anti-Prion Protein Monoclonal Antibody was raised against an ovine recombinant protein.
Clone:	BAR236
Isotype:	IgG2a

Application(s): Reconstitute the content of the vial in 1 mL of water.

For western blot analysis of PrP^C, dilute to a final concentration of 1 µg/mL and use BSA as blocking reagent. For EIA and flow cytometry, the optimal working must be determined empirically (currently between 0.1 and 1 µg/mL).

Specificity: PrP^C
(NA*) Hamster, (+) Mouse, (NA*) Bovine, (+) Ovine, (+) Human.

Product Overview

Prion Protein (PrP) and namely its abnormal isoform, partially resistant to proteinase K (PrP^{Sc}), is the only specific molecular marker of the Transmissible Spongiform Encephalopathies (TSEs) such as Bovine Spongiform Encephalopathy (BSE) or its human form, the New Variant of Creutzfeld-Jakob disease.

This antibody recognises the C-terminal part of the protein but it was not possible to identify a continuous epitope for this antibody.
